Relais & Châteaux Hotel Tennerhof - Kitzbühel
„The individual & most charming 5-star hotel in Kitzbühel“

From weather farmer to 5-star hotel

The first documented mention of the Tennerhof, a respectable farm, is dates back to 1416. At that time because of its special location, the Tennerhof farmer had the duty to observe the weather and to predict its development. When a storm approached, a white sheet was hoisted on the roof of the house. This was the signal for the sacristan to ring the big church bell and so to warn the people of Kitzbühel. The vibrations of the mighty bells were also supposed to dissipate the thunderstorm. Even today, centuries later, the church bells ring when storm clouds approach! The centre of the picturesque mountain town is within an easy walking distance - and yet the Tennerhof is far enough away from the hustle and bustle of everyday life.

Time-honoured tradition on the pulse of time

The Tennerhof has been owned by the Pasquali family of Campostellato since 1929 and was the first 5-star hotel in Kitzbühel in 2000. The romantic property on the south-facing sunny plateau combines exceptional flair with luxury and traditional hospitality for generations. Family-owned antiques, a light-filled ambience, harmonious colouring and personal details lend a very special charm to the historic house. The special calm atmosphere, the view on Kitzbühel and the panoramic view of the surrounding mountains are of a unique beauty. At the Tennerhof, privacy is a top priority, which is why guests will find a charming, individual but unobtrusive service from first-class staff in all areas.

Grown hospitality

This means hotel business of time-honoured tradition with a finger on the pulse of time.

Since 2007 is the hotel a member of the prestigious hotel association Relais & Châteaux and therefore it is part of the most beautiful hotels and restaurants in the world, which fulfil the so-called "Five C's": Caractère, Courtoisie, Calme, Charme and Cuisine.
